CORNER

*Season's Greetings!  
We wish you and  
your family all the  
joys of this holiday  
season. May the  
year ahead bring  
peace, good health  
and much  
happiness to you  
and yours!*

## New Jet 210 Fabric Added to the Dickson Digital Fabric Line

The Dickson® Digital Media Fabric collection consists of fabrics designed for printing with solvent or UV curable ink systems. Specifically designed for busy public venues, these truly revolutionary fabrics are manufactured from flame retardant materials and PVC free resins, and contain no heavy metals. All products in the Dickson Digital Media Fabric collection have excellent lay-flat and are high frequency and hot air weldable. Each meets NFPA 701, CSFM and M1 flame retardant requirements.

In addition to Jet Tex, the collection now includes Jet 210 fabric. This textile-look fabric features a black backing to block stray light, making it ideal for use in banner stands and areas where back lighting may cause a problem viewing the image. Jet 210 also has excellent image quality with extended color gamut. Jet 210 is a 7 oz. per square yard fabric, available in 36, 44 and 120 inch widths.

**Fabric:** 100% Polyester  
**Finish:** Solvent and UV Curable Inkjet Printable; Meets Flame Retardant Requirements - NFPA-701 TM 2, CSFM and M1  
**Width:** 36, 44 and 120 inches  
**Weight:** 7 oz. per sq. yd.  
**Put Up:** 36 and 44 inches- 33 yard rolls, 120 inches- 66 yard rolls

Item No.	Description
908510	Jet 210 - 36 in., Boxed
908511	Jet 210 - 44 in., Boxed
908512	Jet 210 - 120 in., Boxed

## Get "High Definition" Screening with BetterVue™

Phifer's new BetterVue insect screening for windows, doors and porches is an excellent visibility insect screen designed to maximize outward view.

Woven from small, refined yarns that improve the screen's openness, BetterVue makes visibility sharper and more brilliant. It's like a "high definition" insect screen for windows, doors and screened porches. With BetterVue, customers see the clear and vibrant view, not the screen.

BetterVue has excellent visibility from inside and great curb appeal when viewing windows from the street. It features outstanding insect protection due to 30% smaller openings than standard screens. A great product for coastal regions, BetterVue is available in black and has improved light transmittance and airflow due to increased openness.

Fabric: 20 x 20 Fiberglass Screen

## New Xtreme Seal® Products for Any Custom Cover

Tri Vantage has added two new Xtreme Seal® products to our line of trimmings for custom covers such as convertible tops, side curtains, windshield tops and sides, front drop windshields, radar arches and deck seals. Xtreme Seal's superior performance and professional appearance can make your finished product stand out to your customers.

**Xtreme Seal Ultra Seal** is designed for a great edge seal. It works well with Common Sense fasteners and gives a flatter finished profile. Minimum 2,500 feet per order.

Item No.	Description
578051	Xtreme Seal Ultra Seal POD9, Black

The new **V-Seal** is an edge seal that works well with all cutouts and tight corners, bow covers and radar arch cutouts. Minimum 2,500 feet per order.

Item No.	Description
578053	Xtreme Seal V-Seal POD11, Black
