Serge Ferrari<sup>®</sup> Group development is based on strict adherence to good safety and environmental practices that include an understanding of Life Cycle Analysis (LCA), selection of the best materials and eco-design. Précontraint 502, 502 3-Color Stripes and 542 2-Color Stripes fabrics are compliant to European R.E.A.C.H\* regulations.

\* R.E.A.C.H is the Regulation on Registration, Evaluation, Authorization and Restriction of Chemicals. It entered into force on 1st June 2007. It streamlines and improves the former legislative framework on chemicals of the European Union (EU).

The main aims of REACH are to ensure a high level of protection of human health and the environment from the risks that can be posed by chemicals, the promotion of alternative test methods, the free circulation of substances on the internal market and enhancing competitiveness and innovation.
