

Protect what matters most.

Barricade™

Help your customers protect their valuable investments from the elements and from scratching with Barricade™. Barricade is an advanced cover fabric featuring a breathable film sandwiched between two layers of soft but durable bicomponent non-woven material. From grills and motorcycles to cars and airplane windshields, Barricade guards against the damaging effects of sun, dirt, dust, and moisture. This highly water resistant and quick drying fabric will ensure valuable possessions are protected for years to come.
