

Cutting Tools Guide

Made with the professional fabricator in mind, the shears offered at Trivantage® deliver the best in design, function, and precision. Our selection includes top brands like Kretzer®, Wiss®, and KAI®, along with thread nippers, and electric and battery-operated rotary cutters. Equip your shop with the best hand tools on the market through Trivantage.

THREAD NIPPERS

Thread nippers are small, spring-loaded tools specifically designed for snipping threads. Their compact size and sharp, pointed blades allow for precision cutting in tight spaces, making them ideal for trimming loose threads, fixing small stitching mistakes, and other light cutting functions.
