

INTRODUCING SEAMSTICK TAPER TOOL

Make the task of applying seam tape
quick and simple with the Seamstick Taper

Designed by a fabricator, this easy-to-use tool works with many sizes of zippers, webbing, and trim to accurately and consistently apply ¼" seam tape. A quick-switch tool block guides the zipper or trim through the taper. Simply switch the tool block to adapt the Seamstick Taper for use on a variety of materials.

- Saves time and improves accuracy
- Precise tape positioning eliminates "bleed over" and inconsistent placement
- Can be used to apply tape to one or both edges of the zipper, webbing, or trim
- Works with any length of #10 or #8 zippers and 1½" or 2" premade facings
- Includes #10 Tooth Tool Block

OTHER BLOCKS SOLD SEPARATELY:

- 255202 Tape Block #10 Coil Zipper
