

Care & Maintenance Instructions

To properly clean and maintain your PanoramaFR products we recommend using PanoramaFR Protective Cleaner. This is an IMAR cleaning product and available through your PanoramaFR provider. Use of non-authorized cleaners or protectants may damage the PanoramaFR vinyl.

ALWAYS use PanoramaFR Protective Cleaner to immediately remove harmful liquids, creams, chemicals or sprays that come in contact with the PanoramaFR surface.

ENSURE the surface of the PanoramaFR vinyl is dry and free of materials that may scratch the surface. If dirty, flush the surface with water and clean with a mild soap. Rinse thoroughly and allow to dry. If desired, a silicon squeegee can be used to speed the drying process. Make sure the vinyl is completely dry before retracting or rolling.

SPRAY the PanoramaFR Protective Cleaner on the surface of the vinyl and wipe with a cotton or microfiber cloth. Be sure the cleaning solution is completely worked into the surface so that the vinyl is completely dry when finished. Again, make sure the vinyl is completely dry before retracting or rolling.

NEVER

- Use Windex, Rain-X, Pledge, Plexus, Simple Green, Orpine or any other harsh cleaner to clean PanoramaFR products.
- Use a car wax or any kind of wash and wax to protect PanoramaFR products.
- Use cleaners, polishes, scratch removers, or any products intended for commercial grade vinyl or plastic. This may damage the PanoramaFR material.

Flame Resistant Clear Vinyl

PanoramaFR press-polished vinyl
is **ideal for roller screens, patio
enclosures for outdoor seating and
tent windows**. Experience crystal
clarity with no haze, dimples, or
distortion.

About PanoramaFR

PanoramaFR is a flame-resistant press-polished clear vinyl sheet designed for indoor or outdoor use in any application where clarity, durability, strength, and flexibility are required.

Manufactured in the USA using the finest raw materials and a painstaking quality control process, PanoramaFR comes with superior optical clarity and dimensional stability. This crystal-clear vinyl contains no blue or gray haziness, fish-eye effect, or other visual distortion.

PanoramaFR effectively blocks 95% of UVA rays and 98% of UVB/C rays and is designed to withstand wind, rain, and debris.

Use Cases

Restaurants

Restaurant patio enclosures made from PanoramaFR can extend usable space and enable outdoor dining in all seasons. Protect customers from the elements without disrupting their view.

Resorts

From poolhouses to large reception halls, PanoramaFR can be used to create luxurious indoor/outdoor spaces with controlled climates and crystal-clear vistas.

Residential

PanoramaFR flame-resistant vinyl can be used to create retractable screens that are effectively as clear as glass, giving homeowners more control over their favorite outdoor spaces like sunrooms and patios.

Tent & Structure

PanoramaFR can be used in tents or temporary structures to create durable, flexible vinyl walls that contain no haze or distortion.
