"We patch your outdoor fabrics"

Repair and Reinforce with SunPatch™

SunPatch extends the life of awnings, bimini tops, tents, umbrellas, covers, and more. Made using Sunbrella® solution-dyed acrylic fabric, this fade-resistant patching material can be used for tears, reinforcements at stress points, as a moisture barrier, or for frame/bow wraps. Backed with a long-lasting heat-activated adhesive, SunPatch is easily applied with a heat press, hand iron, or hot air gun and roller, making field repairs quick and easy. The 6" x 60" patches can be cut to fit and are available in 8 colors.

212070	#01 Pacific Blue
212071	#08 Black
212072	#30 Cadet Grey
212073	#31 Burgundy

212074	#37 Forest Green
212075	#46 Captain Navy
212076	#48 Taupe
