

SOLAIR[®] VERTICAL CURTAIN HARDWARE

Easy installation, long-lasting shade

Solair Vertical Curtain hardware makes it easy to create durable, customizable shade solutions for outdoor spaces. The system delivers shade and performance, offering cool comfort, privacy, UV protection, and energy savings. Paired with your choice of mesh or awning shade fabrics from Trivantage[®], Solair Vertical Curtain parts are ideal for porches, patios, restaurant enclosures, and outdoor kitchens. The premium components enable curtains that can accommodate widths ranging from 4 to 20 feet—based on the use of roller tube couplings or split gudgeons—with drops up to 12 feet (depending on fabric thickness). Operate your vertical curtain a hand crank and gear, or choose one of the many motorization options.
