Architectural Shade Fabric

Commercial 95® 340 by GALE Pacific is the standard in commercial-grade architectural shade fabric. Since 1998, Commercial 95 has proven to be a high quality, durable shade solution used by industry professionals around the world.

Features & Benefits:

- Up to 96% UV block
- HDPE cloth won't rot or absorb moisture
- Stentured fabric decreases shrinking

Applications:

- Playground shade
- Swimming pool shade
- Construction screen
- Wind protection

Material	Construction	Nominal Fabric Mass	Flammability	Roll Length & Width
UV Stabilized High Density Polyethylene (HDPE)	Lock-stitch monofilament yarn and tape yarn	10 oz. / sq. yd. 340 GSM	Meets ASTM E-84, Class A	131 ft. x 9 ft. 10 in. 43.74 yds. x 3.28 yds. 40 m x 3 m

UV protection varies by color, up to 96% UVR. All results occur within the category of Very Effective according to the Australian Standard AS4174:2018. Percentages are available upon request.
