■ Innovation and Performance

- Unique, satin finish for a modern, high-end look
- Flexibility and strength provide freedom of shape and size
- Tried and tested protection against heat and the elements for year-round comfort
- Blocks 100% UV rays (UPF 50+)

■ Proven longevity

Created with Serge Ferrari Précontraint® technology, Soltis Proof 502:

- Does not tear or stretch, ensuring structures last over time
- Durably resists UV damage due to rigorous pigment selection and thicker yarn crest coating than the competition

■ Exclusive Précontraint® technology

Patented worldwide, the Précontraint® technology by Serge Ferrari involves keeping the composite under tension throughout the manufacturing cycle. It gives our materials exceptional performance that enable them to surpass market standards in terms of dimensional stability, mechanical strength, coating thickness and flatness.

Applications

Retractable awnings, velums and pergolas, shade sails, light structures and fixed shading systems
