

Waterproof and Translucent

External Applications:

Pergolas, canopies, shade sails, awnings

■ **Waterproof and translucent**

- effective and durable protection against weather
- a high level of translucency for more natural light
- better heat reflection to maintain a comfortable thermal environment
- a visible textured effect

Soltis® ProofW96 ensures your outdoor space is comfortable so it can be used year-round.

■ **Stylish and low-maintenance**

Soltis ProofW96 provides unique benefits for unsurpassed ease-of-use:

- quick, easy maintenance
- UV resistance for long-term colorfastness

An elegant solution
that is both waterproof
and translucent

■ Exclusive Précontraint® technology

Patented worldwide, the Précontraint® technology by Serge Ferrari involves keeping the composite under tension throughout the manufacturing process. This gives our materials exceptional performance that enables them to surpass market standards in terms of dimensional stability, mechanical strength, coating thickness and flatness.

High-tenacity polyester micro-yarn base cloth	①	Superior elongation and tear resistance
A coating with fabrics under bi-axial constant tension in both warp and weft directions	②	No deformation during processing and use
Thicker coating at the top of the yarns and a dirt resistant surface treatment	③	Superior aesthetic and mechanical durability
Exceptional flatness and thinness	④	Smooth easy to clean finish, space saving, easy rolling
