CARE AND CLEANING

Sunbrella Embroidery Thread features the same easy cleaning benefits of legendary Sunbrella fabrics. If a stain occurs, simply clean the embroidery with soapy water. Bleach or detergent may be used on Sunbrella Embroidery Thread to clean difficult stains, but is only recommended where the embroidery thread, surrounding fabric and bobbin thread are genuine Sunbrella.

5-YEAR LIMITED WARRANTY

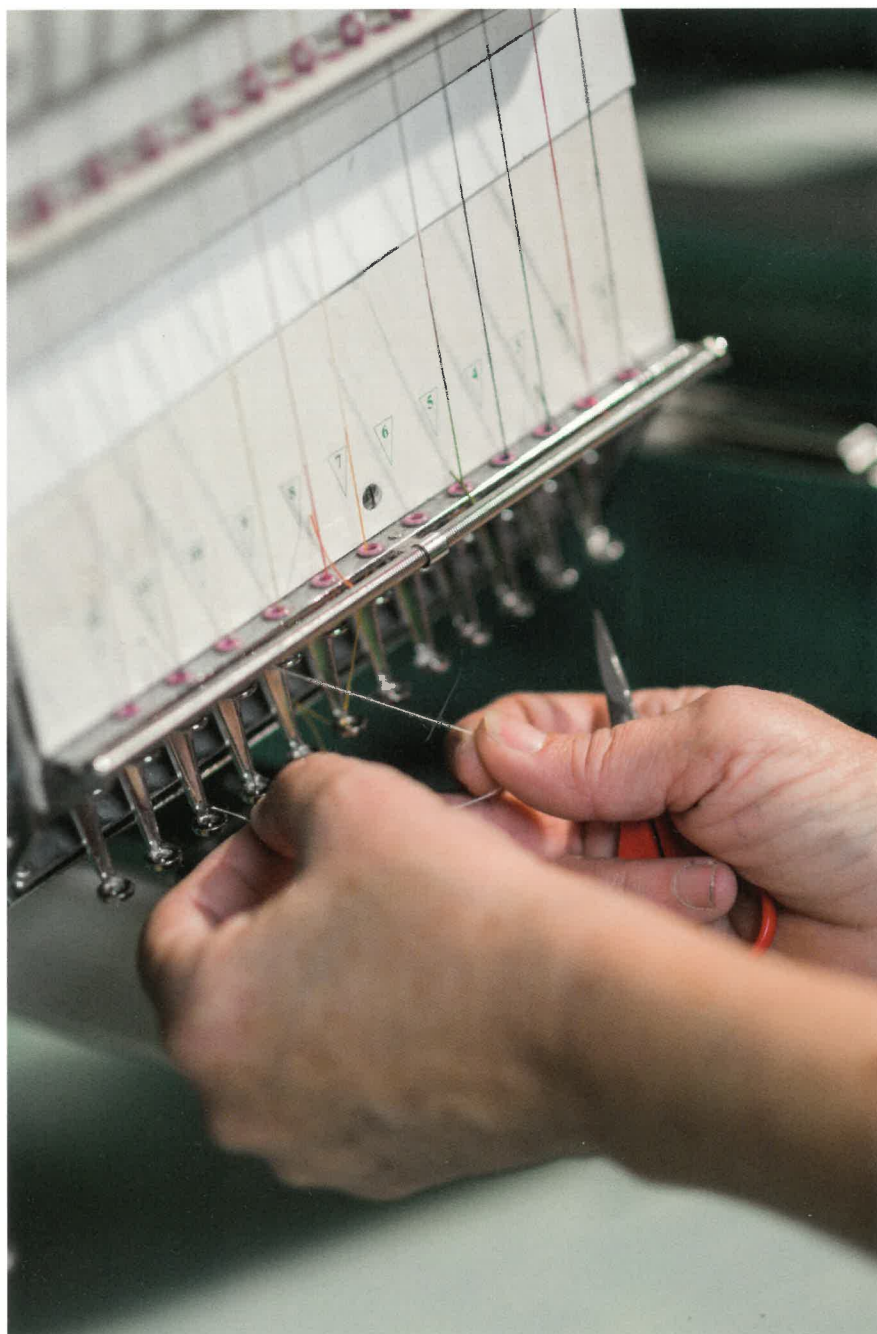

Glen Raven guarantees that Sunbrella Embroidery Thread will not be damaged by exposure to sunlight, or atmospheric conditions for five years. This warranty does not apply to defects resulting from improper embroidery techniques, misuse, cuts, or abrasion. This warranty is only valid for applications using Sunbrella Embroidery Thread for the embroidery and the bobbin thread.

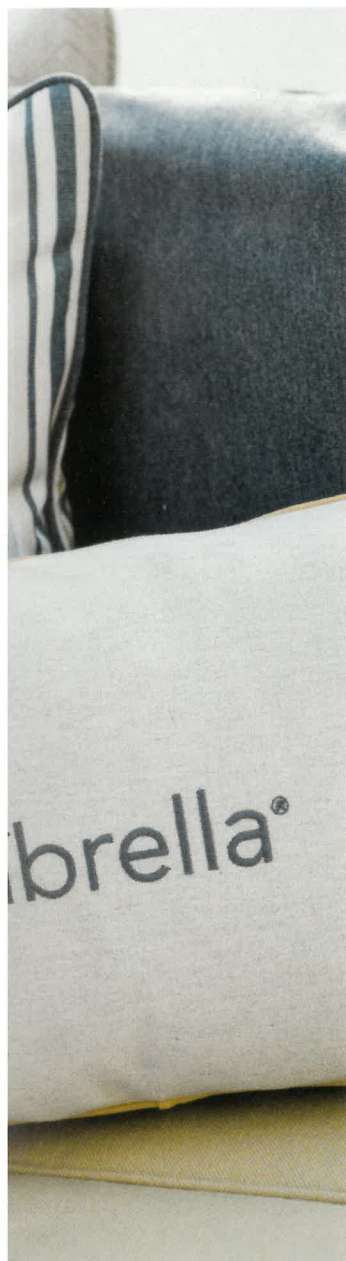

Glen Raven will:

- Replace or refund the price of Sunbrella Embroidery and Bobbin Thread failing to meet this warranty; and
- Pay an authorized dealer for the reasonable and customary expense to re-stitch any article that was stitched using Sunbrella Embroidery Thread for the embroidery and the bobbin thread.

SUNBRELLA EMBROIDERY THREADS ARE COLOR CONSISTENT. THE ABOVE COLORS ARE TRUE TO PRODUCTION THREAD.
SUNBRELLA BOBBIN THREAD IS AVAILABLE IN BLACK AND WHITE ONLY AND VARIES IN COLOR FROM SUNBRELLA EMBROIDERY THREAD.

SUNBRELLA® EMBROIDERY THREAD is a revolutionary embroidery product which brings the industry-leading color fastness and weather durability of Sunbrella fabrics to decorative stitching. Sunbrella fabrics are the leading performance fabrics in the awning, marine, furniture and automotive markets. Now, Sunbrella Embroidery Thread opens up infinite possibilities for customizing outdoor and indoor products, offers carefree cleaning, and enables the creation of beautiful, durable embroidery. Sunbrella Embroidery Thread can be used for decorative cushions, monogramming, boat tops, resort umbrellas, bags and accessories, awnings and tents and many other applications.

Sunbrella Embroidery Thread has been thoroughly tested and is approved by expert embroiderers. For best results, follow these guidelines:

- Sunbrella Embroidery Thread is larger than many typical embroidery threads. The size of Sunbrella Embroidery Thread is configured to provide optimal coverage and sewability for a wide range of outdoor and indoor applications. With proper setup, yield should increase up to 30%.
- The recommended needle for Sunbrella Embroidery Thread is 90/14.
- Be certain that the hook settings are correct for the needle size.
- Ensure that the embroidery design is properly digitized and configured for Sunbrella Embroidery Thread.
- It is not advisable to use Sunbrella Embroidery Thread on small lettering where many stitches may be laid over each other.
- Ensure that tension settings are correct in order to achieve the desired stitch.
- To ensure the desired longevity and easy cleaning of Sunbrella Embroidery Thread, Sunbrella Bobbin Thread is highly recommended. Without using Sunbrella Bobbin Thread the warranty is voided.

				
1961	Mid 70's	Early 80's	2002	2011
Revolutionary new Sunbrella® awning fabrics dramatically outlast cotton canvas.	Sunbrella marine fabrics begin protecting boats and boaters worldwide.	Sunbrella casual furniture fabrics turn patios into outdoor rooms.	Beautiful Sunbrella residential fabrics mean indoor furniture is now stress-free.	Celebrated 50 years in the industry.
