Sur Last® All-Weather Fabric

Trust Sur Last to stand up to the rigors of providing protective cover. Constructed from 100% solution-dyed polyester, this 7-ounce, 600 denier woven fabric is durable yet lightweight, making it easy to compact and stow away. Thanks to its high tear and tensile strength in both warp and fill directions, Sur Last also has high dimensional stability and abrasion resistance.

Engineered to be mold-and-mildew resistant and easy to maintain, Sur Last is finished with a solvent-based, water-repellent treatment. This specially formulated urethane coating is also gel-coat friendly, extremely gentle on sensitive surfaces and greatly diminishing the chance of scratches or abrasion of a finish.

Custom colors available upon request. Minimum orders apply. Sur Last is proudly made in the U.S.A.

Easy to Care For

Sur Last is designed to be easy to care for. It can be washed, or brushed off and rinsed. Proper care and cleaning is important to the life of all fabrics. Visit surlast.com for more cleaning information.

Easy to Use

Sur Last is flexible and easy for manufacturers to use. Its urethane coating enhances the stability of the weave and allows for greater water resistance, while also minimizing shrinkage and stretching.

Sur Last does not require a hot knife or serging during fabrication and resists unraveling. As with most coated products, for best results, the non-coated face of the fabric should be exposed to the sun.
