

BellBloc® 68GRN

BellBloc® 68GRN is a Non-PFAS hydrophobic PET fabric liner system that improves the performance of every fabric in any application by protecting the foam insert from the elements. Developed specifically for outdoor, hospitality and residential markets to resist moisture, water-based stains, prohibit mold and mildew and reduce the loss of foam compression due to the elements.

BENEFITS:

- Excellent water and water based stain repellency.
- Good hydros
- Breathable
- Reduces mold / mildew
- Low strength loss to heat and UV
- Cal Prop 65 Compliant

PROPERTIES:

BellBloc® 68	54-56” width 68 gm per sq meter non-woven
Spray Rating	90+
Hydros.....	160MM+
Breathability.....	105CFMs+
Mold/mildew Reduction	>98.0%
CAL 117-2013	PASS

Bellbloc® 68 standard roll is 50 linear yards however special cuts can be made available.
