

BellBloc 68

BellBloc 68 is a hydrophobic PET fabric liner system that improves the performance of every fabric in any application by protecting the foam insert from the elements. Developed specifically for outdoor, hospitality and residential markets to resist moisture, stain, prohibit mold and mildew and reduce the loss of foam compression due to the elements.

BENEFITS:

- Excellent water and oil stain repellency.
- Good hydros
- Breathable
- Reduces mold / mildew
- Low strength loss to heat and UV

PROPERTIES:

BellBloc 68	54-56" width 68 grm per sq meter non-woven
Spray Rating	90+
Oil Rating.....	5+
Hydros.....	170MM+
Breathability.....	105CFMs+
Mold/mildew Reduction	>99.0%
CAL 117-2013	PASS

Bellbloc 68 standard roll is 50 linear yards however special cuts can be made available.
