

EDGE WEBBING WARRANTY

Polyfab Shade Sail Edge Webbing™ is designed for use on HDPE knitted shade cloth supplied by Polyfab USA LLC (or equivalent quality fabric) for use in tension shade structures such as hip and ridge and tension membrane shade sails.

In the unlikely event of a failure, the webbing will be replaced. The manufacturer cannot be held liable for consequential damage.

NOTES:

- If any doubt of the compatibility of the webbing and the material it's being sewn onto, sandwich a piece of the webbing between 2 layers of the fabric to be used and clamp this under pressure overnight.
- The finished structure needs to be properly engineered by a professional engineer and installed by a licensed contractor in accordance with local building codes. It is the responsibility of the fabricator within these parameters (and the breaking strength of the webbing) to determine the proper use of this edge webbing.
