

SYNTEC[®]
Marine Carpet Warranty

Syntec Industries offers a limited warranty that covers all carpets manufactured from our ultraviolet protected materials. We warrant to the purchaser of said carpet that the fabric will not fade or fail due to the effect of sunlight for a period of three years from the date of purchase. Fade is defined as a significant change from the original color. Fail is defined as a significant decrease in pile weight from the original.

Any warranty claims should be sent to the following address:

Syntec Industries, LLC
Attn.: Technical Service
P.O. Box 1653
Rome, GA 30162-1653

Syntec will respond promptly to a claim. Carpet must be available for inspection by an authorized representative of Syntec Industries for analysis before any settlement.

In the event of a valid warranty claim prior to two years from the date of installation, Syntec will supply carpet of comparable value and color as a replacement for the affected area of carpet. During this time period, Syntec will pay competitive labor rates for installation of the carpet, with a limit of \$20.00 per square yard. During the third year, Syntec will supply carpet only. For carpet less than 16 ounces of face weight as specified, Syntec fully warrants the fabric against failure for the period of two years. The same remedies to failure apply during this full warranty period. After one year, but prior to two years from the date of purchase, Syntec will supply replacement **carpet only**. *No warranty will apply on fabrics lighter than 16 ounces past two years from the date of purchase.*

This warranty does not apply to any carpet installed on stairs, athletic surfaces, or other heavy traffic areas. Burns, improper exposure to chemicals, negligence, faulty maintenance or installation are strictly excluded from this warranty.
