

AURA COLLECTION CARE & CLEANING

Aura is a luxury vinyl with Resilience™ performance traits built in, helping to keep it looking its best.

When spills occur, promptly wipe up or clean soon after the fabric is soiled. The quicker you clean spills, the easier they can be to remove.

- Clean dirt, dust, and grime with mild soap and water. Rinse the cleaned area with water and dry with a lint-free cloth.
- For food stains and oils wipe the affected area with a soft cloth or bristle brush using a non-abrasive cleaner. Rinse with clean water and wipe dry.
- For tough stains, clean the soiled area with 70% solution of Isopropyl Alcohol (Rubbing Alcohol) and water. It is important to rinse the area with clean water after applying the alcohol solution.
- For healthcare related stains, clean the soiled area with 10% solution of household bleach and water. It is important to rinse the area with clean water after applying the bleach solution.
- Aura Collection will resist, without serious discoloration, the repeated actions of normal dilutions of non-abrasive chlorine- or ammonia-based cleaners.
- It is strongly recommended NOT TO USE commercial vinyl conditioners or protectants.
