

### Mr. Clearco Silicone Spray (2007 Formulation)

VOC & OTC Compliant for Industrial Applications

**Multi-purpose Silicone Spray – excellent lubricity, safe on plastics, rubber, foam & vinyl**

13 oz. net wt.  
(20oz can size)

Mr. Clearco Silicone Spray is formulated for a wide array of applications to prevent sticking and to provide slide. The active ingredient is polydimethylsiloxane (CAS # 63148-62-9) that is clear, colorless, odorless and inert. The silicone film that is imparted on the surface provides excellent lubricity, high dielectric strength, and protection against corrosion. It is safe to use on the majority of plastic and rubber surfaces. For lubrication applications involving plastic, rubbers and foams, it is an excellent choice.

Mr. Clearco Silicone Spray has been reformulated to meet California VOC and OTC Compliance for Industrial Use. The new formula contains no hexane or acetone in the formulation. In addition, it contains no CFC's or ozone depleting chemicals. The can itself has been improved as well. The spray heads and valves have been enhanced to provide maximum efficiency. There is also an improved spray button that is more user-friendly than the previous smaller button.

**Sewing and Cutting Room Applications:** reduces friction and wear when applied to fabric cutting tables, bobbins, sewing needles, presser feet, and sewing thread.

**Upholstery/Furniture Applications:** prevents polyurethane foam from sticking to tabletops, allows cellophane, film, saran and vinyl polyethylene to move freely over sprayed surfaces. Provides slide for plastic, prevents glue and adhesive from adhering, stops squeaking in doors, windows and assemblies, Prevents jamming of equipment caused by glues, adhesives, waxes, etc.

**Anti-Corrosion and Insulating Applications:** repels moisture and protects against corrosion and wear, Eliminates carbon build-up on sealers and allied equipment, Protects machines from acid build-up, rust and other foreign elements.

**General Industrial Applications:** eliminates sticking when sprayed on rails, belts, stamps and grip fingers of labeling equipment, Prevents sticking on chutes, bins, walls and surfaces. Keeps material moving and prevents adhesion of greases and oils, provides slide for tight fittings.

- Imparts a tenacious-durable silicone film
- Excellent lubrication for plastics, rubbers, vinyls & foams improved
- Prevents sticking on chutes, bins, walls and surfaces. Keeps material moving and prevents adhesion of greases and oils.
- Allows cellophane, film, saran and vinyl polyethylene to move freely over sprayed surfaces
- Provides slide & lubricates non-metallic surfaces
- Prevents glue from adhering and eliminates sticking when sprayed on rails, belts, stamps and grip fingers of labeling equipment.
- Repels moisture and protects against wear
- Prevents rust and corrosion from forming
- Final film is clear, colorless, odorless, non-staining, dielectric and inert
- Contains no CFC's or ozone depleting chemicals

#### Properties

<b>Can size</b>	20 oz.
<b>Net wt.</b>	13 net oz.
<b>Packing</b>	12-13 net oz. cans per case
<b>Weight</b>	14 lbs. per case
<b>Active Ingredients</b>	Pure Dimethyl Silicone Fluid Does not contain Chlorinated Solvents

#### CAS Information

Hydrocarbon Propellant CAS 68-476-86-8  
Heptane: CAS-142-82-5  
NJ Trade Secret #80100382-5037P  
Dimethylpolysiloxane: CAS-63148-62-9
